Dear Sir/Ms:

The following question has been received:

Question: Bid documents state mowing may commence when vegetation reaches an average height of 10". Who defines this average height? Is it; height from ground to 10" vertical measurement, or is it the measurement "length of grass"?

Response: Height from ground measuring the length of the grasses and forbs.

Consider this change and information prior to submitting your bid on **February 3, 2016**

Sincerely,

George M. A. Macdougall P.E.
